**DETAILED ACTION**

***Amendment***

1. Receipt is acknowledged of the Request for Continued Examination and the Amendment filed October 8, 2010.

***Allowable Subject Matter***

2. Claims 1-4, 6-8, and 11-25 are allowable over prior art.

The following is an examiner's reason for allowance: Although prior art includes teachings of portable communication devices for at least mono-directional communication with a terminal, the identified prior art of record, taken alone, or in combination with any other prior art, fails to teach or fairly suggest the specific features of claims 1-4, 6-8, and 11-25 of the present claimed invention. Specifically, prior art fails to teach the portable communication device including a micro-module including a chip; a reader configured to receive the micro-module, wherein the reader includes an antenna of low or medium range type allowing for micro-module to transmit a radio-frequency communication to the terminal when the antenna is placed in a vicinity of the terminal, and wherein the antenna is held by the reader such that the micro-module is removable relative to the antenna. The amended claim 1 requires the portable communication device to include two separate components - a reader and a micro-module and therefore the prior art which discloses an antenna coin embedded in the SIM does not read on the currently pending claims. The specific limitations recited in claim 1 are not disclosed in prior art and moreover, one of ordinary skill in the art would not have been motivated to come to the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
